ROBERT J, 2:01 1-2.

The World's Records Broken at Terre Haute, Ind.

FASTEST MILE IN HARNESS.

The Track Now Considered the Fastest One in Existence—The Town Wild With Excitement—Joe Patchen Robbed of Much Glory—The Performance of Alix a Disappointment to the Crowd.

TERRE HAUTE, Ind., Sept. 15.—The world's records went glimmering over the Terre Haute track yesterday, which now holds all but two—the fastest three heats pace and the fastest 2-year-old pacing race records. There is hung up now the fastest mile ever gone by a horse in harness, Robert J, 2:01 1-2; the miles of Nancy Hanks and Alix, each in 2:04; the world's record for 4-year-old trotters, made by Fantasy, in 2:06; the fastest six heat race ever gone by a 3-year-old, Expressive's great race three weeks ago; the fastest 2-year-old trotting race record, Oakland Baron's mile in 2:16; Whirligig's 3-year-old pacing record of 2:10; the stallion pacing record of 2:08 3-4 by John R. Gentry and the stallion record of 2:04 by Joe Patchen; the marvelous mile by a 2-year-old pacer, done by Carbonate yesterday in 2:09, and his previous record of 2:10, tied by Directly.

That is why the town is wild with enthusiasm. Geers was up behind Robert J, and at the second trial, the word was given. The clip was so fast that the pacemaker fell behind the first quarter, being done in 30 3-4 seconds. Up the hill he went at even a faster gait and was at the half in 1:00 3-4. Down the third quarter the unbeaten gelding came like a whirlwind; 29 1-2 seconds marked his time for that quarter, and he was at the three-quarter pole in 1:30 1-4. Geers, with rein and voice, gently reefed the gelding, who came, true and strong, never for a moment wavering under the terrific trial, and a moment later Geers landed Robert J under the wire in 2:01 1-2.

Pandemonium broke loose. Men shouted themselves hoarse, tossing hats and canes in the air. Women set aside dignity and waved handkerchiefs and parasols to the melody of their more resonant applause. There were cheers for horse, for driver and for the owner, Mr. Hamlin, and Geers was lifted from the sulky and carried up the stretch on the shoulders of admiring friends.

Scarcely less marvellous was the performance of the 5-year-old pacer Carbonate. Half an hour before his only rival, Directly, had gone to lower the mark made by Carbonate on Wednesday. But the fast son of Direct was unequal to the task and could do no better than tie it. Then came Carbonate, the son of Superior. He did the first quarter in 31 1-2, went to the half at a 2:03 clip, doing the half in 1:03 1-2. In the third quarter he was going at a 2:06 gait, doing the third quarter in 1:35. His tender mouth caused him to falter when Curry took the reins to reef him. It was but for a moment and again he was away and landed the heat in 2:09 flat, lowering the world's record for 2-year-olds.

The marvellous mile of John R. Gentry was made in the opening heat of the free-for-all pace, carried over from Wednesday, when he did the mile in 2:08 3-4. Some caught the mile in 2:03 1-2, and it is believed that had the pacemaker gone after the black 5-year-old, a little harder the Patchen Wilkes horse would have done the mile in as good as 2:03.

There was great disappointment over the Alix performance. With so perfect a day and track it was thought the mare could make a new world's record for trotters. But she had tied the Nancy Hanks mark on Wednesday, and it was too much to make a second effort the same week. Before the heat she seemed nervous. She did not get away strong, it taking 31 1-2 seconds to do the first quarter. When the half was reached in 1:02 3-4 the crowd dropped back resignedly. The down-hill third quarter was in the same time as the second. Then hope was abandoned by the silent crowd. On she came at a still slower rate, doing the mile in 2:04 1-2.

## GUILT OF CONTEMPT.

Two of the American Railway Union Strikers in Court.

INDIANAPOLIS, Sept. 15.—George Scholtz, president of the Terre Haute branch of the American Railway union, and A. H. Daniels, who was chief of the grievance committee of the union at Terre Haute during the recent railroad strike, were both found guilty of contempt of court by Judge Baker of the United States court yesterday. The court released the men on their good behavior.

Referring to the alleged statement of Scholtz, brought out in evidence that the flag of the American Railway union would take the place of the stars and stripes, Judge Baker said: "When we get a new flag, the whole body of the people are going to be invited, are going to have a chance to say what they think about it and not simply the members of the American Railway union."

## LOOKING FOR A LOST DAUGHTER.

ANDERSON, Ind., Sept. 15.—John McNulta, an aged gentleman from Cincinnati, has been here in search of his daughter Jennie, aged about 22, who left home about two years ago. He has been searching for her all this time, and learned that the girl had come here, where she worked in a butter dish factory. While here he discovered that she had died a year ago. The poor old man is heartbroken.

## JOHN BULL BELLOWED

And Awakened the Chinese in Time to Save Themselves.

NEW YORK, Sept. 15.—The Herald prints the following translation of a message dated "With the Japanese Fleet Before Wei-Hai-Wei, Gulf of Pe-Chi-Li, August 12," from a Japanese correspondent serving with the Japanese fleet, the publication of which was prohibited by the Japanese government on the alleged ground that it would stir up anti-British feeling in Japan and thus imperil the safety of British subjects in that country:

At 1 o'clock yesterday morning, Aug. 11, our fleet, consisting of 12 men-of-war and a flotilla of six torpedo boats, took advantage of the darkness of night and crept into the harbor of Wei-Hai-Wei, unknown to the Chinese in the forts, and vessels.

Six torpedo boats were sent out with the purpose of blowing up the Chinese warships anchored within. The flotilla was proceeding in the wrong direction, and then, discovering their mistake, they turned back, changed their course, and made straight to the place where the Chinese lay in safety.

When midway, a British man-of-war, which was anchored there, fired salutes for the Japanese vessels, a very unusual thing to do in such circumstances. Upon this all the electric and search lights at the forts were lighted in an instant, and soon all the forts were in activity. An exchange of shots for over an hour followed.

Seeing that their plan to take the Chinese by surprise fell through on account of the salutes from the British, and further firing being of no avail, the Japanese retired. As the torpedo flotilla was returning, a Chinese torpedo boat discharged a torpedo against it, but it failed to do any damage, and for its trouble was instantly rewarded by being sunk by a torpedo discharged by one of the Japanese boats.

The salutes from the British vessel can not be but regarded as signals to make the slumbering Chinese know of the presence of the Japanese. It is not customary to fire salutes at dead of night.

## DOUBLE MURDER.

An Old Man and His Daughter Killed and Their Bodies Burned.

ATCHISON, Kan., Sept. 15.—Meager details of a double murder are just received from a remote part of Jackson county, Kan. Joseph Strong, an old resident, who had the reputation of being a miser, lived with his 14-year-old daughter in a tumble-down cabin on a lonesome farm, miles from any other house. Strong, though supposed to be quite well-to-do, was known to have no bank account and the supposition that gold was hidden about his miserable abode, led those who knew him to urge that he provide himself with better protection than was his custom. He paid no attention to their appeals, however.

For several days past neither he nor his daughter has been seen and an inquiry into his condition resulted. His cabin was found in ashes. A further search revealed the charred remains of the couple. Nothing was found to lead a clew to the authors of the crime, for such it undoubtedly was. It is believed the robbers took all the money they could find, and then fired the dwelling to cover the crime.

## DEADLY DUEL.

Two Brothers Kill Each Other Near Northport, Ala.

BIRMINGHAM, Ala., Sept. 15.—News comes from Northport, Ala., of a fatal duel which occurred near that place yesterday between John and Alexander Tyler, brothers. Both were prominent planters, and their plantations adjoined. They quarreled a few days ago about the location of a line fence and yesterday, when they met in the road, the difficulty was renewed. Hot words were followed by blows, and finally both drew pistols and began firing at close range.

They continued shooting until both had emptied their revolvers. John was wounded three times and Alexander received two bullets. The former died soon after being removed to his home, and there is no chance for the latter's recovery. The only witnesses to the deadly duel were the two little sons of the dead man who were in a buggy with him when the firing began and escaped by hiding themselves under the murdered man's wife.

## CAUSED BY JEALOUSY.

A Man Kills His Wife and Then Attempts Suicide.

WASHINGTON, Sept. 15.—Thomas Taylor, 33 years of age, killed his wife, who was 25 years old, yesterday by shooting her with a pistol, which he then turned on himself. Taylor's wound is not dangerous, however, the wounded wife having thrown his arm to one side just as he was about to put a bullet through his heart. Jealousy caused the deed.

The couple had quarreled frequently, Taylor respecting his wife of undue intimacy with other men and especially with a canvasser named Peeke. She denied the truth of his charges, but without convincing her husband that they were groundless. Thursday he learned by questioning his child that Peeke had been there and yesterday, after a scene, he fired the fatal shot.

## COREANS RISE AGAINST JAPS.

LONDON, Sept. 15.—A dispatch from the Shanghai correspondent of The Times says: "Fusan reports say that the whole of South Corea has risen against the Japanese, and it is feared that armed rebels will attack Fusan. Two thousand Japanese troops have arrived at this port."

## HER ACCOUNTS SHORT

Sensation Sprung in Grand Army Circles.

## THIS ONE AMONG THE WOMEN.

Mrs. Anna E. Grubb of Camden, N. J., Past National Treasurer of the Ladies of the Grand Army of the Republic, is charged with Misappropriating the Funds of That Organization.

PITTSBURG, Sept. 15.—By an official announcement yesterday Mrs. Anna E. Grubb of Camden, N. J., past national treasurer of the Ladies of the G. A. R., is charged with misappropriating the funds of that organization. This statement in the ladies' meeting yesterday created a sensation unequalled in the history of the order since the beginning. The proceedings of the convention were secret, but one of the ladies, who is in high standing, makes the statement that Mrs. Grubb has defaulted to the amount of \$500, and suit has been brought against her bondsmen to recover.

Mrs. Grubbs, she says, was re-elected to the office several times, and had the confidence of the ladies to such an extent that the auditors in going over her books considered it necessary only to make a cursory examination. How long the shortage has existed is not stated, but at the Washington encampment the books were thought to be correct, and she was re-elected. At Indianapolis, in 1893, when a new treasurer was elected, Mrs. Grubb failed to turn over some of the books and investigation then discovered the discrepancy. When Mrs. Carrie V. Sheriff, who was president in 1892, learned of this fact, she, together with Attorney John M. Vandershoe of Philadelphia, conferred with Mrs. Grubb in Camden, and suit was filed through Voorhees Brothers, attorneys of Camden. This was six months ago, and the case will come to trial next month. It appears that nothing of this was known to the members of the order until yesterday.

In the very warm discussion which followed the announcement, Mrs. Margaret A. Stevens of Camden, a member of the council of administration, and Mrs. Laura McNier, who was the first national president, made urgent appeals in behalf of Mrs. Grubb, and suggested that the ladies donate enough to make up the deficiency, hoping to keep the scandal from becoming public. Others, however, bitterly denounced the ex-treasurer, and insisted that the law take its course. The majority voted in favor of prosecution, and the end is not yet. The excuse made for Mrs. Grubb by her friends is that when she used the money it was to help her husband out of financial straits and she could not return it when called upon.

## CHARGED WITH MURDER.

A Mysterious Killing About to Be Revealed by the Courts.

MACARTHUR, O., Sept. 15.—Elmer Waldren was indicted yesterday for the murder of Thomas Waldren, his uncle, seven miles west of this place. The wife of Thomas Waldren was also arrested and put in jail on the charge of being an accomplice to the murder of her husband.

The murder was a diabolical one and occurred under peculiar circumstances. Thomas Waldren was sitting before the old-fashioned fireplace with his wife near but somewhat in the rear. About 8 p. m. suddenly a shot was fired through the glass of the window, and he fell off his chair mortally wounded. He died a short time afterward. Sixty shot were picked out of his body. The shooting was done with shotgun through the window by some one on the outside. Illicit liaisons are supposed to have existed between Elmer Waldren and the murdered man's wife.

## CAUSED BY JEALOUSY.

A Man Kills His Wife and Then Attempts Suicide.

WASHINGTON, Sept. 15.—Thomas Taylor, 33 years of age, killed his wife, who was 25 years old, yesterday by shooting her with a pistol, which he then turned on himself. Taylor's wound is not dangerous, however, the wounded wife having thrown his arm to one side just as he was about to put a bullet through his heart. Jealousy caused the deed.

The couple had quarreled frequently, Taylor respecting his wife of undue intimacy with other men and especially with a canvasser named Peeke. She denied the truth of his charges, but without convincing her husband that they were groundless. Thursday he learned by questioning his child that Peeke had been there and yesterday, after a scene, he fired the fatal shot.

## COREANS RISE AGAINST JAPS.

LONDON, Sept. 15.—A dispatch from the Shanghai correspondent of The Times says: "Fusan reports say that the whole of South Corea has risen against the Japanese, and it is feared that armed rebels will attack Fusan. Two thousand Japanese troops have arrived at this port."

## CRASHED BETWEEN CARS.

WEST CARROLLTON, O., Sept. 15.—George Myers, aged 38, single, an employee of the George H. Friend Paper company, here, was fatally injured by being crushed between the couplings of two moving freightcars on the Big Four switch.

## Residence Burned.

GALLIPOLIS, O., Sept. 15.—Fire last night destroyed the residence of United States Inspector Edward Morgan, together with his household effects. The fire was of incendiary origin.

WHISKY AND BAD COMPANY  
Is What This Negro Blamed For His End on the Scaffold.

HOPKINSVILLE, Ky., Sept. 15.—Beverly Adams, colored, was hanged at 8:30 a. m. Friday.

The scaffold was in the jail yard only a few steps from his cell. He walked to the place of execution attended by several officers and three spiritual advisers.

After joining in singing the hymn "Shall We Meet Beyond the River?" he made a short statement, during which he said: "If I had let whisky alone, I wouldn't have been in this fix. Whisky and bad company caused it, but I'm going home."

The black cap was then adjusted, and the trap sprung by Deputy Sheriff Goley. Adams' neck was broken and he showed no signs of life, save a twitching of his legs and a few gasps. He was pronounced dead and the body was cut down in 12 minutes.

## The Crime.

Adams was a tall, slim, brown-skinned negro, 23 years old. On the night of May 6, 1894, he went to the house of his grandmother, who it is supposed was Ott Campbell's mistress, and calling Campbell to the door, deliberately shot and instantly killed him. Adams claims that he had the pistol, a small derringer, in his hand to guard against dogs, and that Campbell came to the door and asked him for whisky, which he did not have, whereupon Campbell began searching him, and in the scuffle the pistol was accidentally discharged.

## AN OUTBREAK IN INDIA

Is Very Likely to Occur as a Result of the Riots at Poonah City.

BOMBAY, Sept. 15.—The excitement which commenced on Wednesday at midnight at Poonah City and which led to a riotous fight between Mahomedans and Hindoos continues. All business is suspended and the streets are patrolled by a squadron of lancers. The governor of Bombay, Lord Harris, is doing his utmost to reconcile the warring parties.

To make matters worse, a pamphlet in leaflets has been issued by 14 Brahmins, urging the Hindoos to arm and inaugurate a religious outbreak as the first step toward the overthrow of the alien power.

As already cabled, the outbreak was caused by the objections of the congregation of a Mahomedan mosque near the Daroval bridge, to the music of a native band, which was at the head of a procession of Hindoos. The latter persisted in allowing the band to play, the Mahomedans raised a warcry, and a three-hours' fight followed, during which the Hindoos flocked to the scene of the disturbance and sacked the mosque, which they also attempted to burn. One man was killed and many were injured during the fight.

## JACKSON INTERVIEWED.

Says in the Future He Will Pay No Attention to Corbett.

NEW YORK, Sept. 15.—In an interview Peter Jackson said:

"I can not see what there is to say. Corbett may have it all his own way now, for I'm off to the West Indies on Saturday. I am glad I broke up Brady's scheme. That will always be a source of satisfaction to me. I leave the whole field to the great champion. He can talk. I will not reply. I am classed as broken down fighter and accused of fishing for a go with Slavin, also called another broken down fighter. It is proper, therefore, that broken down fighters should class with themselves. So I leave Corbett in full charge."

"I shall think some when I am away of that island in Missouri river, where the fight was to have been held. They say the tides are wonderfully strong out there. What if we had been squaring off at high tide. Both drowned would have been the newspaper headline. I shall never again answer anything that Corbett may say. He has the field to himself. I certainly do not think his offer to fight in a room, etc., is worth answering."

Jackson does not know when he will return to this country.

## COLORADO SHEEP WAR.

Some of the Herders Will Sell Out While Others Will Fight.

RIFLE, Colo., Sept. 15.—Sheriff Ware of Garfield county has thoroughly investigated the recent sheep killing. Officers claim to have a chain of evidence that will justify arrests. Herders in charge of the sheep at the time of the killing claim to be able to identify three or four of those implicated. Parachute sheepmen declare their intention to quit business, and buyers are now on the ground.

## Preparing to Fight.

DUBUQUE, Colo., Sept. 15.—The sheepmen who were sufferers from the late raid on their herds on the Book cliffs are holding the disputed territory, guarding every avenue of ingress vigilantly. A party of hunters from here, who went up to hunt, were stopped at the top of the trail and ordered to go back.

## Went Daffy on a Train.

LIMA, O., Sept. 15.—A passenger, whose name is unknown but thought to be John Kennedy of New York, was suddenly stricken with insanity on a Pennsylvania train here and conveyed to the stationhouse. He has some money and is ticketed from Chicago to New York. The heat and excessive drinking brought on his trouble.

## Wife Murderer Executed.

LEHI JUNCTION, U. T., Sept. 15.—Davis, the wife murderer, was executed. He was placed in a chair and blindfolded and at a signal six soldiers shot him, firing through loopholes in a tent. He died in three minutes.

Fair weather; south winds.

THE good people of Kentucky are glad that the contest over the Democratic nomination in the Seventh Congressional district will be settled to-day.

SENATOR BRICE threatens to resign if the Ohio Democratic convention censures him for his fight against the Wilson bill. This is a grand bluff. Really, wouldn't the party be better off without him?

It is asserted that the trouble in the Knights of Pythias ranks resulting in the abolition of the German ritual was brought about by the A. P. A. to gratify their prejudice against anything that's foreign. Now what will they do with the English language? It is largely made up of foreign languages.

THE first four days after the McKinley bill went into effect imports to the amount of \$2,441,312.07 were withdrawn from the New York Custom House. The first four days after the Wilson bill went into effect the withdrawals amounted to \$3,050,498.02. The Ledger now wants the people to pledge themselves not to buy any foreign goods. Didn't they buy any foreign goods under the McKinley bill? What became of the \$2,441,312 worth of goods imported in four days under the Republican tariff? The editor of the Ledger continues to play the people for a lot of ignoramuses.

It doesn't bespeak the highest order of intelligence or discernment in a Democrat that he should be wheeled into promising to vote for a Republican on a count of a specious or plausible plea of any kind that the latter may urge, as he might almost as well change his politics altogether as to change it to suit the importunity of one candidate clamorous for office. It oughtn't to require much independence for a Democrat to refuse to vote for a man who has all his life voted the Republican ticket and has been a strong partisan, should the latter have the temerity or assurance to ask that the Democrat help put him in office.

THE West Union Defender takes a sensible view of the matter. It says: "There were no trusts in the United States when the Republican party came into power. Now there are hundreds of them, all built up in the last thirty years. If the Democratic party has not been able to wipe them out in less than eighteen months it is nothing to its discredit; for all sensible people know that it is much more difficult to eradicate an evil than to inaugurate and perpetuate one. If, after a fair and reasonable opportunity to effect a cure of the evils inflicted upon the people by the Republican party, it fails to accomplish that work, then the people will have good reason to condemn the party in power."

"THE Democrat who is disposed to weaken when he hears blatant Republicans howling that they are going to carry everything in sight and out of sight, needs a ram-rod shot into his back bone to stiffen it," says the West Union Defender. "Blow and bluster succeed at nothing. It is nervy, energetic, conscientious fighting that always wins and with the achievements of the Democratic party in view, every Democrat should be inspired to redoubled efforts to secure to himself and his country a greater fulfillment of Democratic pledges, and thereby augment the prosperity and happiness of the people."

We trust there are no Democrats in Mason County who require any of the Defender's stiffening process.

HERE'S something more from Uncle John Wanamaker, that will make his orthodox Republican brethren shudder with dismay. In one of his big advertisements September 5th, he says:

It is surprising that any one supposed that the common people—Abraham Lincoln said it better, "the plain people" could not count for themselves. That reduced charges at the Custom House would make no difference in prices!

What was the tariff fight about if it were not to put down prices?

At the first go off it certainly does that—at least it does it in this store. Five per cent. or 10 per cent. or 20 per cent. less duty means something less in cost. It does not mean full 5, 10 or 20 per cent. less price because the reduction is only on the duties paid. Whatever it is, however, that part comes off the price.

When Wanamaker was Harrison's Postmaster General he was positive that the importer paid all the taxes.

### AGUE CAKE.

Enlargement of the Spleen Caused by Chronic Catarrh.

People who have been much afflicted with malaria or fever and ague are very liable to have a fullness or enlargement of the left side just under the ribs. This is commonly called in malarious districts ague cake. This fullness is due to enlargement of the spleen, caused by the malaria. The enlarged spleen presses against the heart above, causing palpitation of the heart and shortness of breath. It also presses against the stomach and bowels, causing disturbed digestion, bloating, constipation, gurgling in left side, and a formation of great quantities of gas.

As long as there is a particle of the malarial poison left in the system, not only will the ague cake continue to disturb the function of the other organs, but the enlarged organ tends to perpetuate the poison in the system.

It seems to be a settled fact that Pe-ru-na is the most reliable, if not the only, remedy that can be relied on to cleanse the system in cases of chronic malaria. It never fails to bring relief to these disagreeable symptoms, and if a regular course of Pe-ru-na is taken it does not fail to permanently cure.

In order to furnish the public a complete knowledge of the effect of Pe-ru-na in old cases of chronic malaria the Pe-ru-na Drug Manufacturing Company of Columbus, O., have published an illustrated pamphlet on chronic malaria, which will be sent free to any address.

THE Catholic Knights of Kentucky elected the following officers at Lexington: Rev. Mr. L. Bax, State Spiritual Director, Louisville; T. J. Danahy, State President, Lexington; Sylvester Rapier, State Vice President, New Haven; Edward George Hill, State Secretary, Louisville; Frank Speckert, State Treasurer, Louisville; W. C. Smith, Supreme Delegate, Louisville; Hy B. Feldhaus, Supreme Delegate, Louisville. The next Supreme session will be held at Omaha, Neb., May, 1895.

Do you take the New York World? If not you should subscribe. It should be in the hands of every Democrat. The World has just changed its weekly into a twice-a-week paper, and you can now get the two papers a week for the same old price—\$1 a year. Think of it! The news from New York right at your door fresh every three days—104 papers a year.

### Dangers of Intolerance.

What did intolerance accomplish against the Baptist Church? If laughing scorn and tirade could have destroyed the church, it would not have to-day a disciple left. The Baptists were hurled out of Boston in olden times. Those who sympathized with them were imprisoned, and when a petition was offered asking leniency in their behalf all the men who signed it were indicted. Has intolerance stopped the Baptist Church? The last statistics in regard to it showed 25,000 churches and 3,000,000 communicants. Intolerance never put down anything.

In England a law was made against the Jew. England thrust back the Jew and thrust down the Jew and declared that no Jew should hold official position. What became of it? Were the Jews destroyed? Was their religion overthrown? No! Who became Prime Minister of England? Who was next to the throne? Who was higher than the throne because he was counselor and adviser? Disraeli, a Jew. What were we celebrating in all our churches as well as synagogues only a few years ago? The one hundredth birthday anniversary of Montefiore, the great Jewish philanthropist. Intolerance never yet put down anything.—Rev. T. DeWitt Talmage.

Let McKinley Answer.  
(West Union Defender.)

The wool-growers are likely to put harder questions than ever to McKinley this fall. It will be hard for him to explain to them how it is that, while his increased duties knocked down the price of wool, free wool instantly goes up in price, and puts money in their pockets.

### The Old Friend

—Let McKinley Answer.  
(West Union Defender.)

The wool-growers are likely to put harder questions than ever to McKinley this fall. It will be hard for him to explain to them how it is that, while his increased duties knocked down the price of wool, free wool instantly goes up in price, and puts money in their pockets.

## LEFT THE FIELD

In the Eighth, the Ashlands Did, and the Game Was Awarded to Maysville.

Friday's game of ball between the Ashlands and Maysvilles was brought to a close in the first half of the eighth inning by the visitors leaving the field.

The locals had taken the lead in the first, but some costly errors in the third and fourth gave Ashland the best of it by three runs. In the fifth inning the Maysville boys got together and did some crack playing in the fifth, sixth and seventh. Wellner was pitching a magnificent game, and struck out five or six men in succession in the three innings, the visitors not being able to find him at all. In the seventh Maysville scored two runs, and had tied the score in the eighth when the grand kick from the visitors was made over the umpire's decision on a very close play at third. The game was awarded to Maysville by a score of 9 to 0. Following is a summary:

## GAME THIS AFTERNOON.

The two teams will try it again this afternoon. Game called at 2:30. Go out and see it, as it will be a lively one. Manager Watson authorizes the BULLETIN to say that all ticket money will be refunded at the gate if the nine innings are not played.

The feature of yesterday's game was Reamon's magnificent playing at third and Wellner's twirling. Reamon made three or four sensational catches and the visitors got only six hits off of Wellner.

Reamon and Kehoe will be in the points for Maysville this afternoon, and Kouns and Claggett for Ashland.

Ashland has signed Rudy for the rest of the season.

The Ashland boys all had it in for Fred Frank yesterday, but the way Frank lined out that two-bagger and the singles and got around the bases made them worse than ever. They would like to have Fred back at Ashland, but he says nixie to all their pleadings.

## She Fooled 'Em Badly.

The Prowler of the Winchester Democrat is responsible for the following: "During the warm weather last week a large party of young girls from Paris came up to Strode's creek, near Thatcher's Mill, and selecting a most quiet spot they disrobed and enjoyed a bath. They had a regular picnic until there appeared on the bank of the creek a young man. This created a commotion, and there was screaming and a regular stampede for the woods ensued. One very modest young lady dived to the bottom of the creek, grabbed a root and held on until almost drowned. When all quieted down it was found that one of the young ladies had taken along a suit of her brother's clothing in order to have some fun, and had slipped away and put them on. It was a horrid thing to do, and the frightened damsels have not yet forgiven her."

## The Tobacco Crop.

A representative of Liggett & Myers, of St. Louis, large tobacco manufacturers, has been making a tour through the White Burley district and reports that he has found but two counties that come up to the average, viz.: Montgomery and Fayette. In all other counties the crop is more or less below the average both in quality and quantity. Montgomery never had a more promising crop than the present one.

## The Modern Mother.

Has found that her little ones are improved more by the pleasant laxative, Syrup of Figs, when in need of the laxative effect of a gentle remedy, than by any other, and that it is more acceptable to them. Children enjoy it and it benefits them. The true remedy, Syrup of Figs, is manufactured by the California Fig Syrup Co. only.

MISS CORA HALEY, whose critical illness was mentioned early this week, died Friday morning at 4 o'clock at the home of Mr. Joseph Trisler on Second street, Fifth ward. Consumption complicated with malarial fever, was the cause of her death. She was fifteen years old and was a niece of Mr. Trisler. The remains were taken to Stone City, Lewis County, this morning for burial.

A GLASGOW firm has just shipped a lot of lumber to Hamburg, Germany. It was probably the finest lot of poplar lumber that ever left the woods of Southern Kentucky. There was not a knot, flaw or crack in the whole. The two car loads contained 21,000 feet, and this 21,000 was culled from 1,000,000 feet of lumber. Each plank of the lot was stencil marked, and every five planks were tied in separate bundles.

## A LITTLE TOO FAST

It Seems Were Huntington Parties in Ordering J. Wilkinson's Arrest.

Chief of Police Ort received a telegram from Huntington Friday afternoon to arrest one J. Wilkinson, a passenger on the westbound F. F. V., and hold him on a charge of felony.

The arrest was duly made by officers Stockdale and Bland and the Huntington parties notified. The accused was searched and \$295 cash was found in his pockets.

On hearing his story later in the evening, Cheif Ort was satisfied the Huntington parties had been in too big a hurry in their actions. Instead of jailing Wilkinson, he was placed in charge of a guard for the night.

Wilkinson is a lawyer and a partner of the Prosecuting Attorney of Huntington. A note for \$500 was sent them not long ago for collection. The money was duly collected. The firm had six months in which to turn it over. Friday Wilkinson concluded to make a trip to Cincinnati, and was en route when his partner became uneasy, it seems, and had him arrested.

Officer Frampton came down this morning from Huntington and he and Wilkinson returned on the 10 o'clock train.

## Contract Let.

The contract for the Manchester, West Union and Winchester Railroad has been let to the Frazier-Highland Construction and Equipment Company of Chicago, Ill. Mr. Highland's company has contracted to lay the twenty-five miles of track and equip the same for service for a consideration of \$200,000.

In the way of equipment the company is to furnish two high grade dummy engines, two thirty-six foot passenger coaches, three freight cars, (two box cars and a gondola) and such other equipments as is necessary to put the road in good running order. They agree to begin the work of construction not later than October 1, 1894, and to have the line complete in every particular by December 31, 1894.

RURIC, the twelve-months-old son of Editor McDowell, of Mt. Olivet, died this week.

In the County Court Friday, W. L. Woodward, Casper Haughaboo and Isaac Disher were appointed appraisers of the personal estate of the late John Woodward.

#### BETWEEN WALLS OF FIRE.

This Little Steamer Ran on the Thief River During the Recent Fires.

MINNEAPOLIS, Sept. 15.—Kirby Barnum, who owns a farm near the western border of the Great Red lake Indian reservation, in the northern part of this state, has returned from a perilous trip down the Thief river which skirts that reservation on the west.

The trip was made in a small passenger steamer that plies between the Indian agency and Thief river falls, a distance of 120 miles. Fully half of this trip was made between walls of fire. Mr. Barnum says that the flames have jumped the Thief river and cut a swath through the dense forest fully 60 miles wide.

The whole country is afire, but owing to the fact that communication is slow, little has been heard of it further south. The steamer was forced to go three or four miles at a time and then everybody would get out and stand in the water on the sandbars until the fire and heat abated somewhat. Several times the boat was afire, and it was only with the utmost difficulty that it was saved. If it had burned the whole party must have perished.

The water in the river had been raised to such a temperature by the fire that its surface was covered with millions of dead fish. Bear, deer and other game were fleeing from the flames in great confusion. Many small canoe parties of Indians were encountered making their way down stream as best they could. There has probably been loss of life among them.

Mr. Barnum says that the fire originated in a blaze set by a man who had tried to get control of some hay land from the government. It was given to another man, and out of spite he hired two men to fire it. The flames soon spread to the forest and have been burning ever since.

The people in Thief River Falls and vicinity were so indignant over this act that they threatened to lynch the man if he could be found. He has disappeared with the two men he hired to do the deed.

#### CENSUS ALMOST COMPLETED.

The Work Has Been Done in an Unusually Short Period.

WASHINGTON, Sept. 15.—The work of the eleventh census is about completed, the work on population and vital statistics being all that remains to be done. The portion of the work on population remaining uncompleted is that on occupations. The vital statistics are made up largely from the figures on population and have been held back on account of the work in the population division.

Chief Clerk Downell thinks that in less than five months the work of the census will be completely closed and the present force of 400 employees reduced to 40 or 50 at the outside. These will be experts, who will have charge of the proofs from the printing office. An additional supplement to the compendium of the census is yet to be issued. But while the census work proper will thus be finished in a few months, it may be several years before the work of printing is all done and the completed work published. The completion of the work at so early a period is unusual, and to Superintendent Wright's skill and experience in handling statistics this is largely attributed.

#### FIRE AT CHUNG-KING.

Thirty Lives Lost and 2,000 Buildings Burned—Loss \$15,000,000.

SHANGHAI, Sept. 15.—A disastrous fire, attended with considerable loss of life, is reported to have occurred at Chung-King, on the evening of Aug. 25. The conflagration is said to have raged all night and before midnight the whole of the southeastern portion of the city was in flames. About 80 persons are known to have perished during the fire and it is probable that this number is far less than that which will eventually be shown to represent the actual loss of life.

It is roughly estimated that the loss by the fire will amount to fully \$15,000,000. About 2,000 buildings were destroyed, including part of the taotai-yamen (city hall) and three Chinese temples. No foreign houses were burned. Chung-King is situated on the upper portion of the Yang-Tse-Yang.

#### Congressional Candidates Fight.

CHICAGO, Sept. 15.—E. T. Noonan, Democratic congressional candidate in the Fourth district, was badly wounded yesterday afternoon by George E. White, the Republican candidate in the same district. The men met on West Madison street and after a hot quarrel resorted to fistfights. Noonan's injuries are not thought to be dangerous. Late in the afternoon Noonan swore out a warrant for the arrest of White, charging him with assault and battery and disorderly conduct.

#### Cruelty to Prisoners.

NEW YORK, Sept. 15.—A special to The World from Rio Janeiro says: Although many prisoners have been released more persons have been arrested during the past few days than have been set at liberty. Reports are in circulation that those who were released have told their friends almost incredible stories of cruelty to prisoners. They were often sent, it is said, to serve in menial capacities on shipboard, where some were whipped to death.

#### Dutch Advancing.

AMSTERDAM, Sept. 15.—A telegram received from Batavia states that the Dutch forces, after hard fighting, which lasted all day, captured Pasingabalan, where the Mataram rebels were concentrated. The rebels retreated to Mataram, which is a fortified place. The Dutch, however, are advancing upon Mataram and expect to capture the place within a week, though without a hot engagement.

DEDAWARE, O., Sept. 15.—Councilman William Campbell, while cutting dried beef, sliced off his thumb. A young man named Adams had 15 stitches taken in him for sliding down into a well and alighting on the hook at the end. A little boy named Stricklin fell on the car tracks, sustaining internal injuries.

#### LETTER FROM PETOSKEY.

Two Young Men From Mason—Cheap Land and Good Crops—The Weather and People.

[Correspondence BULLETIN.]  
PETOSKEY, Mich., September 12, 1894.

Thermometer 40°. Big frost in this section. Sorry for you people down there suffering with heat.

Three long excursion trains from Cincinnati filled this place to overflowing. At the depot it was worse than a cry of fight on the Germantown fair grounds. Not a familiar face could be seen in all that motley crowd.

Seeing my first letter in the BULLETIN two young men of Shannon gathered their tricks and hastened here. They were right blue for a day or two, and I was almost sorry that I had written you, but they soon began to get better and are now entirely relieved and delighted that they come. They wore a light summer suit, straw hats, no overcoats, but guess they have found out that they were not in Florida. They were Messrs. Watson and Prather, and you can say to their friends that they are behaving themselves like true Kentuckians.

We might tell you a little about this country, for we can't see why it would not be a good country for a man of small means to emigrate to. Good cleared land can be bought at \$5 to \$15 an acre. The timber in this section is of the hard wood varieties, with a sprinkling of hemlock. North and south are endless pine forests. They grow all sorts of fruits to perfection and the crop seldom fails. All kinds of vegetables flourish except the sweet potato. Irish potatoes is their main crop, and they grow to perfection in size, quality and yield. They are as much of a staple as tobacco is with us. Corn doesn't amount to anything, none but the earliest varieties being planted for roasting ears and ensilage. They tell me, and it seems strange, that wheat and rye do no good. Oats are a success and raised in great abundance. The soil is a sandy loam. Their crops are all matured and sold by October, and then comes preparation for winter. About the middle of November comes their first heavy snow, while the ground is still soft, and then all wheeled vehicles are laid aside and sleds and sleighs are in constant use until the middle of March. So well protected by snow the ground freezes very slightly. Along about the first of January the lake freezes over sufficiently for wagons and teams to cross on it. The fishing in winter is done through holes cut in the ice.

What a paradise this must be for the coasters! The city is built on a slope and they start with their sleds from the top of the hill and go with lightning speed far out on the lake.

The people, as a general thing, are fleshy, and why shouldn't they be, for fish, bread and potatoes are their principal diet, and they seldom sweat any to throw off the surplus?

#### For the Farmer.

W. O. Sidwell, of Tuckahoe, was offered \$35 for a hog a few days ago but refused it. A day or so afterwards the animal was accidentally killed.

Will and Nelson Gay, of Clark County, sold this week to Simon Weihl, agent for Lehman Brothers of Baltimore, 359 head of export cattle for October delivery, at \$4.75 per hundred weight. The lot will average not less than 1,500 pounds.

About 5,000 bushels of potatoes have been dug and shipped to New Albany. The largest yield we have heard of is 125 bushels per acre. The price is 45 cents per bushel. The chances are they will be worth 75 cents and \$1 by spring.—Harrodsburg Sayings.

#### Electric Bitters.

This remedy is becoming so well known and so popular as to need no special mention. All who have used Electric Bitters sing the same song of praise—purer medicine does not exist and it is guaranteed to do all that is claimed. Electric Bitters will cure all diseases of the liver and kidneys, will remove pimples, boils, salt rheum and other affections caused by impure blood. #### Unearthed a Skeleton.

ANDERSON, Ind., Sept. 15.—While cleaning out an old well on a farm near Pendleton, the workmen unearthed a skeleton with some putrefying flesh still clinging to it. The find has occasioned much comment in the neighborhood, and it is believed to be the remains of a peddler, who disappeared very suddenly and mysteriously about three months ago. The matter will be thoroughly investigated.

#### Japanese Repulsed.

LONDON, Sept. 15.—A dispatch to The Times from Tien-Tsin says that news has reached there from Ping-Yan that the Japanese on the night of the 10th made an attempt to surprise the Chinese camp, but were repulsed with heavy loss. The movements of the Japanese troops were impeded by the standing crops, which also hid the enemy from them.

#### Deputy Sheriff Shot.

MIDDLESBORO, Ky., Sept. 15.—William North, a prominent farmer of this, Bell county, shot and instantly killed George Wilson, a deputy sheriff of Leslie county, on the Beech fork of the Cumberland river. The difficulty grew out of a tax settlement. North fled to the mountains and a posse is in pursuit.

#### Forest Fires All Put Out.

ST. PAUL, Sept. 15.—Heavy rains fell yesterday all over Minnesota and a great portion of Wisconsin, and forest fires seem to have been effectively disposed of in all threatening places. This is the first real drenching rain this section has had for nearly three months, and it caused much rejoicing.

#### Confackers Caught.

AURORA, Ind., Sept. 15.—Detective John Stanley of Cincinnati caught the Levi gang in the act of counterfeiting at Osgood. A pot of metal was on the stove and a quantity of quarter dollars were found in the room. The whole gang was arrested.

#### Murder in Bell County, Ky.

MIDDLESBORO, Ky., Sept. 15.—News has reached here of a desperate encounter on Beech Fork between George Wilson, deputy sheriff of Leslie county, and William North, a prominent Bell county farmer. Both parties fired six shots, one of which passed through Wilson's heart, killing him instantly. North was slightly wounded. The dispute grew out of a tax settlement.
